REMARKS

Applicants respectfully request that the present Amendment be entered prior to examination of the present Continuing Application. In the Request for Filing Continuing Application of December 29, 2000, claims 2-29 were canceled. By this Amendment, claim 1 has been canceled and claims 30-95 have been added. Upon entry of the amendments, claims 30-95 will be pending. No new matter has been added in this amendment, and the claims are believed to be in condition for allowance. Accordingly, the Applicants respectfully request consideration of the present application in light of the foregoing amendments and the following remarks.

As discussed above, the new claims 30-95 added in this paper are believed to be in condition for allowance. Independent claims 30, 40, 54, 65, 71 and 81 incorporate unique features previously allowed in the Parent Application. Moreover, in this Continuing Application, the Applicants further clarify the claimed technique to capture unique aspects of the present technique that were not fully claimed in the Parent Application. No new matter has been added by the foregoing Amendment, and the original disclosure fully supports all terminology and features as recited above in new claims 30-95.

Applicants respectfully request allowance of the pending claims 30-95. If the Examiner believes that a telephonic interview will help speed this application toward issuance, the Examiner is invited to contact the undersigned at the telephone number listed below.
